RELEVANT EXPERIENCE

03/2025 – present	Working Student Perception & Grasping Supported forklift robot perception development through robot testing, teleoperation, dataset generation, annotation, and internal Python tooling. <i>Technologies: Linux, ROS, Rerun</i>	Magazino GmbH, Munich
09/2025 – 04/2026	Project Leader Led a team of 20 students working on robotic manipulation projects using NEURA, AgileX Piper and LeRobot platforms.	RoboTUM Student Club, Munich
09/2023 – 06/2024	Working Student Data Engineering Development of internal applications for data analytics and generative AI use cases	Allianz Kunde und Markt GmbH, Munich
12/2023 – 04/2024	Informatics B.Sc. Thesis - Grade: 1.3 Contribution to a deep learning framework in the domain of proteomics, focus on modality fusion	Helmholtz Institute of Computational Biology, Munich / Prof. Theis

PROJECTS

04/2026 – present	Uncertainty-Guided Tactile Shape Exploration Active tactile exploration project using uncertainty estimates to guide next-best-touch selection for shape reconstruction. <i>Technologies: PyTorch, Bayesian Deep Learning</i>	TUM / Prof. Bäuml
10/2025 – 05/2026	Imitation Learning for Robotic X-ray Positioning Developed a learning-based approach for robotic X-ray positioning using simulated expert demonstrations. <i>Technologies: Unity, PyTorch, ZeroMQ</i>	TUM / Prof. Navab
05/2025 – 09/2025	Object Detection for a Litter-Collecting Robot Fine-tuned an object detection model for robotic litter detection. <i>Technologies: YOLO, PyTorch</i>	RoboTUM

EDUCATION

10/2024 – present	Master Studies of Informatics - current GPA: 1.5 Focus on Robotics and Machine Learning	Technical University Munich
10/2020 – 08/2024	Bachelor Studies of Informatics Bachelor thesis in Bioinformatics; project work in autonomous driving.	Technical University Munich
10/2017 – 08/2020	German Law Studies Completion of base studies. Exchange year at Utrecht University, Netherlands	Ludwig-Maximilians-University Munich
06/2017	Abitur - final grade: 1.4	Maximiliansgymnasium Munich

TECHNICAL SKILLS

Programming	Python, C, Java
Robotics	ROS
Machine Learning	PyTorch
Tools	Linux, Git, Docker

LANGUAGES

German - native
English - fluent
Italian - A2

HOBBIES

Volleyball and Running
RoboTUM Student Club
Science Fiction Reading
